

# Send2B for BEYOND

Send2b.exe is a small application that allows you to execute **Pangoscript** commands from the command line. This comes in handy when you want to execute a PangoScript command from within Windows Task scheduler or when you want to execute a curl command from a simple website. As Send2b.exe works with PangoScript, BEYOND advanced or higher is a requirement.

## Download

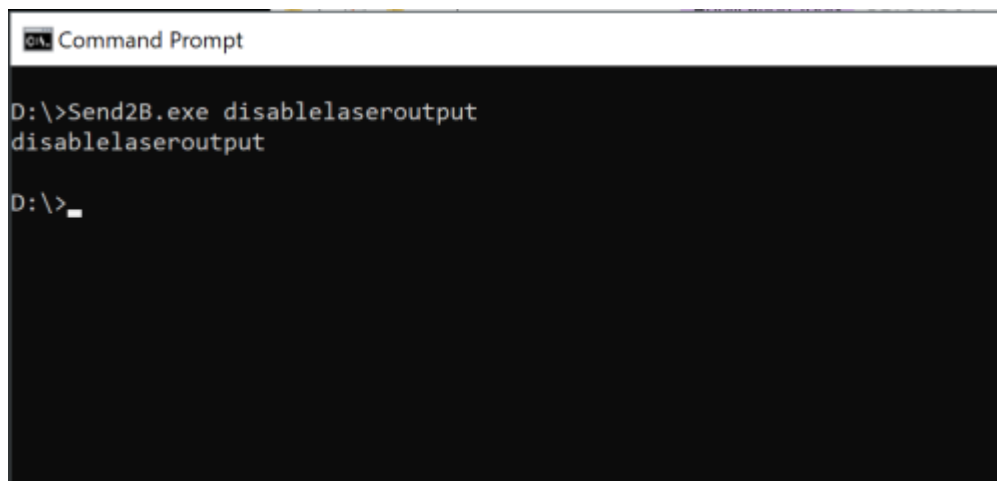

Send2B.exe is a small exe file that can be downloaded in Zip format by clicking here :

Send2B.zip

## Instructions

From the command line you can type in an easy command as:

**Send2B.exe disablelaseroutput**

A screenshot of a Windows Command Prompt window. The title bar reads "Command Prompt". The command prompt shows the directory "D:\>". The user has entered the command "Send2B.exe disablelaseroutput", and the output displayed is "disablelaseroutput". The prompt is now waiting for the next command, showing "D:\>\_".

```
D:\>Send2B.exe disablelaseroutput
disablelaseroutput

D:\>_
```
