

Advanced Tools overview

In addition to the QuickTools, which allow you to create content extremely quickly but with limited parameters, QuickShow also includes a full featured **Laser Frame/Animation editor, Advanced Text editor, Advanced Shape editor, Parametric-image editor and Advanced Clock editor.**

These advanced tools can be accessed by right-clicking in a cue within the cue grid, or by using the Edit menu.

When you right-click on a cue, the menu will open and will allow you to edit existing things and create new things
