

Live Control tab - Color controls

Using the Live Control tab, you can affect the **Brightness**, **Color** and **Visible Points** of everything together (when in [Master mode](#)), or of individual cues (when in [Cue mode](#)). The picture below explains the various options.

Right click

Note that if you click the right mouse button on the **Brightness** or **Visible Points** slider, its value will be reset to 100%. If you click the right mouse button on the **Color** slider, the color will be reset to “Normal”.
